

Kaye Julian (Massillon)
**State Amateur
and
Mid-Amateur Tournament Director**

Katherine (Kaye) Julian joined the WOSGA Executive Committee in 2017. Kaye has been a management employee at FirstEnergy Corporation for over 35 years holding positions in Customer Service, Information Technology and Business Performance with key roles in Project Management on many IT Projects.

Her one key activity outside of work has been golf which she has been enjoying since the age of twelve when her Father encouraged her to take lessons at Firestone County Club in 1974. Her first instructor was Bobby Nichols who was the pro at Firestone at that time. Since then she has enjoyed playing the game and belonged to the FirstEnergy Women's golf league for many years until her children started playing sports and needed involvement in their activities. She spent many years volunteering at their school along with being the Committee Chairman for their Cub Scout Pack.

She has had the opportunity to play many great golf courses over the years such as Pebble Beach, Spanish Bay and Kiawah Island's Ocean Course and Osprey Point to name a few. She has been very lucky to attend the greatest golf event – The Masters for the last 5 years and dreams of playing the course; but in the meantime she enjoys golfing in Florida with her husband and in Ohio with friends and family attending charity and fundraising golf events at many wonderful Ohio golf courses. She hopes retirement, which is soon around the corner, will allow her to get better at her game while she will play with her husband as members at Firestone CC. She looks forward to volunteering to help coach and mentor the younger generation and give back in any way she can.
